

1. Meeting with EDO: ACP discussion and EDO conference
2. Byelection Preparedness: Role of elected officials and role of the CAO: The CAO spectrum Proactive to reactive CAO. FIVE TERRIBLE REASONS TO RUN FOR MUNICIPAL OFFICE (again)
3. Affordable Housing Partnership Program: applied for grant program as per motion of council
4. Meeting with JP developments: Opportunity to work with new house project
5. Public meeting: EPR with ARMA -Alberta Recycling Management Authority -What is EPR? Extended Producer Responsibility is exactly what it sounds like. Currently, producers sell products. When products reach their end of life, they become waste—waste that is managed by municipalities. EPR extends the responsibility of end-of-life products back to producers. • Alberta’s EPR system covers Packaging and Paper Products (PPP), and Hazardous and Special Products (HSP). In each of these categories, only specific materials are designated for management by EPR. Not all materials currently handled by municipalities in these categories are covered by the regulations. • EPR regulations only apply to residential materials—not institutional, commercial, nor industrial materials. • EPR is a voluntary program that saves municipalities money.

## EPR Milestones

6. LGAA meeting in St Paul- Sheila, Ava, and I attended the zone meeting in St Paul
7. Meeting with Sharlene Brown: Informed Sharlene on the status of our restructuring study
