

- 1. Paving 45 Ave (Hwy 36 – 54 St):** Public Works finished all the prep work before the end of September. Contractor has had some delays and was not able to start October 4th. Is ready to come here and pave as long there are 4-5 days of nice weather (over 9 degrees celcius is best). We are still confident that we will be able to finish before the end of October.
- 2. HVAC Maintenance:** We will now have Nordic Mechanical out of Edmonton for the servicing of the HVAC at all our recreation buildings, town office, reservoir and lift station.
- 3. Institutional Voting on Monday October 18th:** we do not think we will be able to go to Hillside Lodge or Long Term Care at the Hospital due to Covid. We have heard from Eagle Hill Foundation that they have a covid outbreak that will not be lifted before election day. We are waiting to hear back from the hospital administrator if AHS will approve or deny our request.

Please see attached CAO Action Tracker for council requests!
